U.S. Home Buyer Households’ Perspective of Downpayment Expectations  Page 6
Consumer Perspective of Downpayment Expectations  Page 11
Member Perspective of Downpayment Expectations  Page 19
Methodology

U.S. Home Buyer Households’ Perspective of Downpayment Expectations:

In July 2019, NAR mailed out a 125-question survey using a random sample weighted to be representative of sales on a geographic basis to 159,750 recent home buyers. The recent home buyers had to have purchased a primary residence home between July of 2018 and June of 2019. A total of 5,870 responses were received from primary residence buyers. After accounting for undeliverable questionnaires, the survey had an adjusted response rate of 3.7 percent.

Respondents had the option to fill out the survey via hard copy or online. The online survey was available in English and Spanish. Consumer names and addresses were obtained from Experian, a firm that maintains an extensive database of recent home buyers derived from county records. Information about sellers comes from those buyers who also sold a home.

All information in this Profile is characteristic of the 12-month period ending July 2019, with the exception of income data, which are reported for 2018. In some sections comparisons are also given for results obtained in previous surveys. Not all results are directly comparable due to changes in questionnaire design and sample size.
Consumer Perspective of Downpayment Expectations:

The survey was conducted by an established survey research firm, TechnoMetrica Market Intelligence. Each month, April through June, a sample of U.S. households was surveyed via random-digit dial, including cell phones and land lines. Using a computer-assisted telephone interviewing (CATI) system, TechnoMetrica conducts interviews from their call center in Ramsey, NJ. Regional quotas are used, based on four census regions and nine census divisions. Each month approximately 900 qualified households responded to the survey. The data compiled for this report and is based on 2,710 completed telephone interviews. For monthly results, the margin of error for the survey is +/-3.3 percentage points at the 95% confidence level.

Member Perspective of Downpayment Expectations:

In February and March 2020, NAR invited a random sample of 104,009 active REALTORS® to fill out an online survey. A total of 6,635 useable responses were received for an overall response rate of 6.4 percent. At the 95 percent confidence level, the margin of error is plus-or-minus 1.2 percent.

The primary measure of central tendency used throughout this report is the median – the middle point in the distribution of responses to a particular question or, equivalently, the point at which half of the responses are above and below a particular value.
U.S. Home Buyer Households’ Perspective of Downpayment Expectations
In 2019, the median downpayment was 12 percent for all buyers, six percent for first-time buyers, and 16 percent for repeat buyers.

In 1989, the median downpayment for all buyers was 20 percent, 10 percent for first-time buyers, and 23 percent for repeat buyers.
Sources of Downpayment

• In 2019, 16 percent of all buyers received a gift or loan from a relative or friend towards the downpayment of their home purchase.

• In 2019, 32 percent of first-time buyers and eight percent of repeat buyers received a gift or loan from a relative or friend towards the downpayment of their home purchase.
Saving for Downpayment Was Most Difficult Task in Buying Process

- In 2019, 13 percent of all buyers cited that saving for a downpayment was the most difficult task in the home buying process.
- In 2019, 26 percent of first-time buyers and seven percent of repeat buyers cited that saving for a downpayment was the most difficult task in the home buying process.
Expenses That Delayed Saving for a Downpayment or Saving for a Home Purchase

- Since 2015, student loans have been the most cited expense that delayed saving for a downpayment.
- Credit card debt and car loans were the next most cited expenses that delayed saving for a downpayment.
Consumer Perspective of Downpayment Expectations

Consumers typically believed that they would need a median of a 20 percent downpayment to purchase a home today. Thirty-five percent of consumers indicated that they would need between 16 to 20 percent for a downpayment, and 21 percent believed that they would need between six to 10 percent for a downpayment today.
Twenty-one percent of consumers surveyed said they have helped a child or family member with money for a downpayment to purchase a home.

Twenty-four percent of owners compared to 11 percent of non-owners said they have helped a child or family member with money for a downpayment.

Silent Generation (34 percent) and Older Boomers (31 percent) consumers were the most likely generations to have helped a child or family member with money for a downpayment.

Factors Holding Back From Saving for a Downpayment

- Thirty-two percent of non-homeowners surveyed said that their limited income was a factor holding them back from saving from a downpayment, followed by rising rents (22 percent) and health and medical costs (16 percent).
- Millennial non-homeowners (33 percent) were the most likely to say that student loan debt was a factor holding them back from saving from a downpayment.
- Silent Generation (57 percent) and Older Boomers (40 percent) non-homeowners were the most likely generations to say that nothing is holding them back from saving for a downpayment.

2020 Downpayment Expectations & Hurdles to Homeownership
Member Perspective of Downpayment Expectations
Typical Buyer Informed on Downpayments

- Eighty-two percent of members surveyed said their typical buyers, who are ready to buy, are informed on downpayments.
- Thirteen percent of members surveyed said their typical buyers, who are ready to buy, are not informed on downpayments.

Typical Buyer, Who is Ready to Buy, Informed on Downpayments

- Yes: 82%
- No: 13%
- Don't know: 5%
Typical Buyer Informed on Closing Costs

- Seventy percent of members surveyed said their typical buyers, who are ready to buy, are informed on closing costs.
- Twenty-five percent of members surveyed said their typical buyers, who are ready to buy, are not informed on closing costs.

Typical Buyer, Who is Ready to Buy, Informed on Closing Costs

- Yes: 70%
- No: 25%
- Don't know: 4%
Clients Received Downpayment Assistance From a Parent or a Relative When Purchasing a Home

- Sixty-five percent of members surveyed said that in the last five years they've had clients receive downpayment assistance from a parent or relative when purchasing a home.
- Twenty-two percent of members said their clients did not receive downpayment assistance, and 14 percent didn’t know.

*In the Last Five Years, Clients Received Downpayment Assistance From a Parent or a Relative When Purchasing a Home*

- Yes: 65%
- No: 22%
- Don't know: 14%
Family Member Financial Help and Influence on Buyer’s Decisions on Where to Purchase

- Thirty-eight percent of members surveyed said when a family member helps to financially purchase a home, that this does not have an influence on where the buyer decides to purchase.
- Thirty-five percent of members said this does have an influence on where the buyer decides to purchase, while 27 percent don’t know if this has an influence.
Family Member Financial Help and Influence on Buyer’s Decisions on What to Purchase

- Fifty percent of members surveyed said when a family member helps to financially purchase a home, that this does have an influence on what the buyer decides to purchase.
- Twenty percent of members said this does not have an influence on what the buyer decides to purchase, while 30 percent don’t know if this has an influence.

Family Member Financial Help and Influence on Buyer’s Decisions on What to Purchase

- Yes: 50%
- No: 20%
- Don’t know: 30%
Clients’ Parents and Family Members Involvement in the Home Buying or Home Selling Process

• Thirty-two percent of members surveyed said that in the last five years they have seen no change in their clients’ parents and family members involvement in the home buying or home selling process.
• Twenty-eight percent of members said their clients’ parents and family members have been more involved in the last five years.
