The National Flood Insurance Program (NFIP) is essential to completing half a million property sales each year\(^1\), but it must be reauthorized by September 30, 2019 to continue providing flood insurance. REALTORS® support H.R. 3167 and urge Congress to find a way forward on a long-term NFIP reauthorization.

### Properties at Risk

Every property in the state has some flood risk; wherever it rains, it can flood, yet not all at-risk are insured.

- **335,248** Total housing units, 2017
- **15,663** Housing units in the state within a 500-year floodplain, 2015\(^2\)
- **3,467** Number of NFIP policies in force as of April 30, 2019\(^3\)
- **1%** Percent of housing units with an NFIP policy

### Flood Insurance Benefits to Policyholders

For many, owning a property is the biggest source of wealth. The NFIP offers substantially more rebuilding assistance than FEMA's Individuals and Households Program (IHP) for uninsured properties.

- **$233,094** Median home value, 2019 Q1\(^4\)
- **$28,641** Average NFIP dollar amount paid on residential claims for properties in the state, 1996–2016\(^5\)
- **1,233** Number of NFIP paid claims\(^5\)
- **$5,812** Average IHP disaster payment to those without flood insurance in the state, 2006–2016\(^6\)
- **2,999** Number of IHP disaster payments\(^6\)

98% of U.S. counties have experienced at least one major flood disaster declaration.\(^7\) Without flood insurance, property owners must turn to the federal government for rebuilding assistance. The total cost to taxpayers of uninsured property damage is $3.4 billion each year.\(^8\)
