

New York State Association of REALTORS®

New York State Association – In response to the upcoming report from the Organizational Alignment Presidential Advisory Group, NYSAR recently held an idea exchange forum and invited all local board executive officers and presidents. A proposal that emanated from the forum is for NYSAR to compile a resource page where local boards can offer to share or provide services to other local boards. The goal is to capitalize on a local board's strengths by offering services to other local boards who may need assistance meeting the new NAR standards.
