

### ***State Leadership Idea Exchange Council – Florida Realtors® A Century of Service***

Since that humble beginning in 1916, hundreds of thousands of Realtors have helped millions of Floridians achieve the dream of owning a home or business. Florida Realtors' mission is to advance Florida's real estate industry by shaping public policy, teaching ethical practice and enhancing efforts of local associations to provide tools members need to succeed.

Florida Realtors is the largest trade association in the state, and its 155,000 members rely on the association for proprietary business forms, networking opportunities, education programs, market data and analysis, advocacy initiatives and much more. This year, we're looking ahead to the next 100 years as Florida's voice for real estate! Shaping public policy and protecting homeownership remains our top priority, our latest and greatest ideas focus on increasing response rates on Calls For Action (CFA) and strengthening our advocacy fund.

**We believe that engaging in policy discussions through CFA's is as a privilege of membership and we'd like to seek out a greater population to take part. Our idea is to run a pilot program with local and regional MLS to list on the MLS log in page the button to respond to Calls for Action. We would inform the members of the actions taken and supply a badge, social media icon, etc. Our members in turn, would then be able to keep their customers informed with just a click or two of the actions REALTORS are taking to protect homeownership and community.**

Together, we are a strong, united voice for our country. Here's a look back at the historic milestones we've achieved as over the last 100 years.

#### **HISTORIC MILESTONES**

- **1916**  
Florida Association of Real Estate Boards is founded.
