

REALTOR.COM TRAFFIC February 2015

Starting in 2014 report, the data includes both desk top as well as mobile traffic. Before 2014, the report only included traffic data from desk top users.

**Due to a processing error, a number of invalid browser calls on the iOS panel were credited as PVs for some entities which impacted the Mobile Platform from Mar-14 to Jun-14. With Jul-14 data, comScore has improved the mobile PV eligibility rules to exclude these invalid PVs from reporting. This issue affected the Total Views measure for Mobile and therefore, Total Digital Population. No other measures were impacted.

Multi-Platform Methodology: comScore's Multi-Platform data is a culmination of its three underlying Audience Measurement products - Media Metrix, Video Metrix and Mobile Metrix. It offers comprehensive reporting on more than 300,000 digital media entities, including their un-duplicated audience size, demographic composition, engagement, performance within key user segments and behavioral trends. All of these metrics can be compared across digital media platforms and can be used to understand incremental audiences and engagement gained from each platform. **Realtor.com Stats Source: comScore Media Metrix Multi-Platform (MM)**
